

Are you a person with a disability or a family member or caregiver of someone of any age with a disability?

The Center for Disabilities and Development, Iowa’s University Center for Excellence on Disabilities (UCED) will be hosting community conversations across the state to collect information on the needs and concerns of the Iowa disability community. We will share this information with communities so that this information we gather may help individuals with disabilities across the state.

During our community conversations, we will be focusing on 5 key topics: employment, health & wellness, transportation, housing and Education & lifelong learning. We are also interested in your additional emerging needs. Please join us to share those needs as well.

Each community conversation will be held from 6:00-7:30 pm.
