

Provider

Are you a professional working for a healthcare or human service agency?

Learn how to better serve those with mental health challenges and provide a better sense of care through this premier professional development opportunity.

Professionals who participate in Provider professional development gain...

- understanding of the realities of having a mental health condition
- increased compassion for vulnerable populations who seek care or services
- recognition of your critical role in the individual and family's journey toward recovery
- empowered view of lasting impact your care makes in your community

Customize Provider to your student/staff needs

- 4-hour or 15-hour training sessions
- In-person, on-site or virtual opportunities
- CEU credits available
